

CHELMSFORD AMATEUR RADIO SOCIETY

News Letter No. 36

November 1968.

Meetings

The Society next meets on Tuesday 3rd, December at the Marconi College, Arbour Lane, Chelmsford, commencing at 7.30 p.m.

The subject at this month's meeting is a talk on PRACTICAL USES OF TRANSISTORS IN AMATEUR RADIO, given by Andrew McDonald G8BAR. Mr. McDonald, an engineer at the Marconi Company's Microelectronic plant in Witham, has had much experience in the transistor field and will, in his talk, include transistor circuitry and the uses of micro-circuits and F.E.T's.

Raffle

A special bumper Christmas raffle will be held at the December meeting and a box of chocolates will be a star prize.

Committee Meeting

The next committee meeting will be held on Tuesday 17th, December, in the "Wheatsheaf", New Street, Chelmsford at 7.30 p.m.

RADIO QUIZ AT COLCHESTER

The Colchester Amateur Radio Society have kindly invited a team of three from our Society to take part in a return battle of wits, at their meeting on Wednesday 11th, December. A team has not yet been chosen so please let the committee have any nominations at the December Meeting.

Support!!!

Please go along to support your team in the quiz; the meeting starts at 7.00 p.m. at the North East Essex Technical College in Sheepen Road, Colchester. Precise details of how to get there will be given at the December meeting.

Questions!!!

We need at least 100 questions and answers for the quiz, so please put your thinking caps on, delve into your R.S.G.B. handbooks, puzzle out some Q's and A's and hand them to a committee member at the Tuesday meeting. Three from each member would satisfy the need, with some to spare for another time.

D.F. News

It is hoped to hold a Stay at Home Direction Finding Contest in February or March, so blow the dust off your D.F. gear or start building! Rumour has it that Ferrite is plentiful again this year!

PLEASE NOTE

It has come to the Committee's notice that some new insurance policies now do not cover their holders if they participate in motoring activities which are run on a bonus or time restriction basis; this therefore includes our D.F. hunts, so in future COMPETITORS ARE STRONGLY ADVISED TO CHECK WITH THEIR INSURANCE BROKER BEFORE TAKING PART, TO SEE IF THEY ARE COVERED.

News and Views

Any members wishing to contribute information to the Monthly News Letter should contact the Editor, Tel. Chel 52168 or at the address below.

A Happy Christmas
To You All.
