

## CHELMSFORD AMATEUR RADIO SOCIETY

Newsletter Number 75

### Club Meetings

The next meeting of the Society will take place on Tuesday, 4th April, 1972 at the Marconi College, Arbour Lane, Chelmsford, commencing at 19:30.

Tim Hughes TD, LLC, G3GVV, the President of the Radio Society of Great Britain, will deliver a lecture entitled "The RSGB and how it works". Few of us realise that our hobby would cease to exist without a responsible national body to represent our interests. There is far more involved than simply collecting subscriptions and publishing a monthly magazine.

### Committee Meetings

The next Club Committee Meeting will take place on Wednesday, 19th April, 1972 in the Saloon Bar of the "Wheatsheaf", New Street, Chelmsford, commencing at 19:30.

The next NFD Committee Meeting will take place on the 10th, April. If you should have any contributions, please contact the Chairman before this date.

### Raffle

Tools, books and our ever popular mystery prizes.

### Editorial

Spalding Mobile Rally - A coach party has been arranged for Sunday, 7th May. The start time and place will be finalised at the next Club meeting.

Construction Competition - Our first competition will be judged in May. Now is the time to put the finishing touches to your entry for presentation. Judging details at the next meeting.

Cont/.....

"709's" - The Club still has some of these i/c's for sale at the ridiculously low price of 10p. This i/c has many uses viz., audio filter, oscillator, differentiator, inverting/non-inverting amplifier, integrator, squarer, level detector, comparator, multiplier, meter extension, etc. etc. Many of these uses have been described in "Radio Communication" and "Wireless World" recently. As a further aid to their use, and the start of a new Club venture, we have circuit details available for loan. Please contact the Chairman at the next meeting.
