

How time flies! its time for the Annual General Meeting again. Traditionally this meeting is combined with the annual Junk Sale (no connection implied) and will be held on Tuesday 1st October, 1974 at the Marconi College, Arbour Lane, Chelmsford commencing at 7.30p.m.

We look foward to the address by our worthy President, Ron Ferguson G4VF and the election of a new committæ for the 1974/75 session, why not take part in the running of the society and get yourself elected to the committee? A proposer and a seconder are generally all that is required. Following the election there will be an open debate for members to air their views on the societies activities.

Regarding the Junk Sale, Roy Martyr G3PMX will perform his customary auctioneering function. Please bring all your unwanted stuff, who knows it may be just what somebody is looking for.

Next Committee Meeting:

Wednesday, 16th October, 7.30 p.m. Wheatsheaf. (Subject to the approval of the new committee).

DF News:

Congratulacions to Mike Hawkins on once again, winning the RSG.B National, DF Final held, this year, near Northampton. Other club members were placed as follows: 7th Arthur Butcher, 10th Bill Pechey, 13th Colin McEwen. Unfortunately, Ian Butson was unable to take part. One of the hidden stations in this year's final was ten feet from the perimeter fence of the BBC station at Daventry - that really tests the cross mod. performance of the front end and sense amplifier.

If there is sufficient support it is proposed to organize one or two winter DF events, so dig out your wellies, summon up your courage (Dutch if necessary) and come for a romp in the snow.

Wanted by my Dad (G3H00); Set of coils for HRO Receiver. Contact G4CUE.
